

# Marcelo Tellier Sartori Vaz

 Marcelotsvaz  marcelotsvaz@gmail.com  Porto Alegre, Brazil

## Skills

Python | Django | OOP | Amazon Web Services | GitLab CI/CD | Linux  
Shell Scripting | Docker | Terraform | Ansible

## Projects

### VAZ Projects

*Projects log and blog - My personal website*

- Built a responsive website using Django, Jinja, HTML and Less.
- Integrated Elasticsearch for site-wide search and Disqus for comments.
- Designed a scalable architecture in AWS leveraging auto scaling groups and CloudFront.
- Implemented a CI/CD pipeline including unit testing, vulnerability scanning and automatic deployment to a staging environment with Terraform.
- Set up monitoring with Loki, Prometheus and Grafana.

### UTL Turismo Website

*Travel Agency Website*

- Built a responsive website with Django, HTML and Less.
- Implemented PDF generation with Selenium.
- Created a Markdown-it-py plugin to display user-uploaded images.
- Developed shell scripts for deployment to staging and production environments on AWS.
